

Lithium Battery Charging Cabinet

Introduction

Safoo smart Lithium Battery Charging Cabinet addresses critical safety concerns during the charging process, including fire prevention, heat dissipation, alarm systems, secure storage, and overload protection—fully meeting the safety and storage requirements for lithium battery charging.

Features

- ◎ Cabinet body: 1.0mm cold-rolled steel plate, double-layer explosion-proof structure;
- ◎ Door: 1.0mm cold-rolled steel plate, riveted seamless welding;
- ◎ Viewing window: $\geq 8\text{mm}$ acrylic panel;
- ◎ Shelving: 1.2mm galvanized steel shelves;
- ◎ Hinges: Piano hinges;
- ◎ Castors: Levelling castors;
- ◎ Load capacity: 500KG.
